

IRSL 2025 International Conference – Final instructions

1. Presentation Guidelines

All rooms are serviced with computers and audiovisual equipment. Please bring your presentation on a USB key, and we strongly recommend saving a backup copy to the cloud or your email.

2. Programme Updates

The final version of the programme, including the names of session chairs, will be published on the conference website shortly.

3. Important Information for the Conference

Temperatures are expected to range from 16–19°C (61–66 °F) to 33–35°C (91–95 °F). Please stay hydrated, use sunscreen, and bring a hat or fan for comfort.

Please remember that eating and drinking are not allowed inside the historical buildings, except in designated areas. Only water is allowed inside the conference rooms.

4. Informal Welcome Gathering (Optional)

For those arriving early in Salamanca: join us on Friday from 8-10 PM for an informal *al fresco* networking get-together. We'll be seated at one of the bars located along Calle Bordadores (see the [Google Maps link](#) attached), where drinks will be available for purchase. Look for someone wearing a t-shirt or cap with the IRSL 2025 logo.
